

## Christmas Present Idea: Send a Silo

It's that time of the year when we start thinking about what to buy for our loved ones this Christmas.

How about thinking outside the box?

You can **buy a share in a silo** for a farmer in Uganda as part of our Send a Silo, Save a Harvest project.

Every shareholder will receive a certificate and a photo of the silo being given to the farmer, creating a **thoughtful and impactful** Christmas gift for your loved one, and for Uganda's farmers!

**Make it a happy  
Christmas.**

Every £133 we raise  
will help **Send a Silo** to  
a farming family to  
**Save their Harvest.**  
This will boost their  
income and food  
security.

## Why Send a Silo to Save a Harvest?

In rural Uganda it can be hard for smallholder farmers to grow a decent crop.

When the harvest does come, most farmers store it in traditional granary stores made with dried mud and grass.

Over time the food in these granaries rots, gets attacked by pests and develops dangerous toxins that make it inedible. Often entire stores of food are spoiled leaving families without food and income.

Our simple and effective solution is to **Send a Silo to Save a Harvest.**

Hermetically sealed metal silos reduce food losses to zero. This provides food security to vulnerable farming communities and a source of income to pay for essential needs such as healthcare and education.

We now have a queue of smallholder family farmers asking for a silo!
